Customer Reviews

I think this book is a total "duplicate" of the book "Let's Find Pokemon!" I think the author saw how popular the book "Let's Find Pokemon!" was and tried to do the same thing with Digimon. Needless to say, she failed miserably. The art isn't good and the challenges in the book are exactly like the ones in "Let's Find Pokemon!"(You have to find three different creatures on each page, which are all hidden in a place from the TV show or the video game) I wouldn't recommend getting this book unless it's for a young kid who just wants to look at the pics and find the Digimon.
