Age Range: 8 - 12 years

Grade Level: 3 - 7

## Customer Reviews

My boys (age 4 and 7) like minecraft and enjoyed reading this book. But I read it out loud to my younger son and there was pretty much a typo on every page. Like "the're" or "heep"....they even spelled Matthew wrong and put "mathhew" on one page. When we read it we each had a pencil in hand it was like a game to see who could find the next error. Honest. The story is ok, but it's very, very poorly edited. In fact I'm not sure if anyone read it through before publishing. HA! If they had someone spend 15-20 min. editing it would have been a little better. Poor spelling, poor grammar, a lot of inconsistencies. Otherwise...3 stars. Notch bless you for trying. Next time get an editor perhaps.....

I couldn't decide whether to give this book a one star or a two star. I was so disappointed in the book. There were so many errors in the book, spelling and duplicate panels! My 10 yr old didn't like the book either. He loves Minecraft! But the story wasn't well thought out. It was so obvious that this book wasn't even edited. Nobody proof-read this book before publishing! I like that the pictures were in Minecraft. That was unique, but that's about all. A major disappointment. Don't waste your money. I liked one poster's comments about going through the book with your child and seeing who could catch the mistakes first!!! =)

If it were up to just me, I would rate this 2 stars. The story is poorly written, the comic has editing problems (repeated panels, 2 panels in the wrong order at one point), and there just isn't a whole lot of content to the story to begin with. BUT my 10 year old son loves it! He loves playing Minecraft, so all the tiny details were fantastic to him. And he didn't care that the story was vapid. Plus, it made him want to sit and read! So if you have a Minecraft loving boy or girl in your life, chances are they will love this book, too.

So I have never read the comic but it has helped my 3rd grader take up an interest in reading. That makes it a winner in my book :)

As others have mentioned, this book is riddled with errors. I bought it to encourage my son to read, too - this may inspire him to be a copy editor! I agree with the other reviewers that the story itself is dull and the writing is awkward, in addition to having issues with the duplicate panels and such. The typeface is also ridiculously small. I hope the next edition is better; there are so many other quality graphic novels and comic books that I will check out first, though. This one earns 2 stars instead of 1 for holding my little guy's attention.

pitiful, way too dark, way too small/short for almost \$10..... just pitiful is all I can say..... a kid is not going to like this item IMO..... if anyone says it's good then they need to look at the item first..... I'm going to buy something else for the grandson this was intended for..... just pitiful.....

It got my non reader to read something....so that alone gets it 5 stars

This book was great I loved it it was fun to read. I think you will like it if you like minecraft I do believe there is a series so i recommended this to you great book for me hope it is for you
