## **Customer Reviews**

My 6 year old received this book for Christmas at the age of 5 and she still loves it. The pictures are colorful and there is enough detail to keep her attention, but they are not cluttered. There are only 12 mazes in the book, but she loves to go back through the mazes, look at the pictures again and again, even though she knows them by heart. I do think though that a young child does need to have a good attention span to sit and do these mazes, it is not appropriate for all children of 5 or 6. It is rated for children at the age of 9.

For the kid who loves mazes, this book is great. The artistry and concepts are fun for all ages! Unfortunately, the book has only 12 mazes in it, but we occasionally go back just to look at some of the pictures.

These are fantastic mazes, each one has a rich "story" behind it - not just paths to get from A to B. The detail and variety within each maze is superb. Our 3.5 year old loves them. Though the attention span of a 3 year old is not very high, he will gladly sit in my lap and go through half the mazes in the book at one sitting. I think in some ways it has helped his attention span. We're looking forward to

collecting the whole set...
