Customer Reviews

I bought this for my niece for Christmas. It was a huge hit. Two months later and she rarely looks at it but she still says it's a favorite. This book is great when they first get it and they love it to pieces. She couldn't read the behind the scenes of High School Musical fast enough. There are pages that asks questions for the reader to fill out for themselves. The included pen is also great and she still uses that but since she read and filled in the book pages, it doesn't really get much use and sits on a bookcase gathering dust. I'm sure it will be great as she gets older and looks back at what she wrote and will love it all over again but the appeal has worn off for now. Is it worth the money? I would say "Absolutely" since it brought such joy to her when she got it, it will be a keepsake for when she gets older, AND she got a recordable microphone pen that also plays parts of music from the movie.
