## Customer Reviews

This was purchased for my 8 yr old daughter who has become totally obsessed with Judy Moody and everything related to it. She squealed with delight as she opened this book. She said, "It's just what I wanted!" That's always a great thing to hear. There are blank pages to write whatever is on your mind, and other pages that ask you "What mood are you in today and why?" There are cute illustrations throughout the book, and funny things written by Judy and her little brother Stink.

I bought this for my ten year old granddaughter. She has read every Judy Moody Book out there and loves reading them. She wanted this journal and is very happy with it. I recommend Judy Moody books for any young girl that wants to read these.

This book has mostly writing pages with a quote from the book and a picture on every page. I think it promotes both writing and reading. Definitely a good book to have to complete a collection of Megan McDonald's Books.

This is a cute journal for a young girl. There are pages with questions and ideas to make you think and get you writing. Just know that the majority of the pages are still blank for basic journal/diary keeping.

This was for my daughter, they love Judy and her journal has helped her to start writing all of her memories

i buy judy moody books for my grand daughter. she loves them and reads them over and over again. a sure favorite.

I purchased this book for my wife's birthday. She's had a copy of this same book for almost 20 years now. Our 7 month old dog found the book in our bookshelf one day and decided to chew it up and rip out all the pages. I purchased the book because I noticed that my wife was kinda upset when she saw the destroyed memories after the dog got a hold of it. When I handed her the new copy she was grateful and happy that brand new copies were still out there waiting for a home.
