## Customer Reviews

I just got my calendar. Turned the page to look at the first page and the entire left spiral binding came completely off. Half of the spiral binding on the right side is bent. Horrible quality. The actual date squares are MUCH smaller than I realized. There's no way to actually write anything within the date boxes. Total waste of money. Next year, better quality please!!

It is a tradition for my son and I to exchange calendars each year. We spent several hours going over the episodes that we found in the trivia.
