Customer Reviews

I've been using this yearly planetary guide for more than 20 years. I refer to it often, and would be lost without it. I suppose one would need to be somewhat astrologically inclined to really appreciate it, as it's greatest function is to map the daily planetary transits and keep track of what sign the fast moving moon is in.

If you believe that the planets play a role in the world at large, this is a great way to know every day

when it's time to set the date of your wedding, talk with your employer, sell your house or have that heart to heart talk with your loved one. Weekly forecasts and layman's terms what planets influence certain areas of your life.

I buy this every year & use it as a dream diary. Plus, there's plenty of astrological info for those who are into it.

Read every week to see what is in store and how to "go with the flow" of the cosmos

i get this every year. it is fabulous, for daily forecasting.
