## Customer Reviews

The kids absolutely love all of these books. They have been great for us on road trips. Our kids, ages 8 & 9 are just totally immersed in these books when they look at them. They are fun and educational as well. They have a blast reading the questions to us and answering them for us if we get them wrong. The book is easy for kids to use. These book are probably geared more for ages 10-12, but even with our kids on the younger side, they still love them and will be going thru them for years to come.

My daughter has many of these books and absolutely loves them! They're great for keeping a child busy for quite a while. :-)

All the books are good!! And my daughter who teaches school also is using them!!
