Customer Reviews

I've been using the "Calendar-Keeper" for many many years (17) for my home child care... It's nice to have everything in one place and the tips on what expenses and deductions you can use has helped save us money at tax time.

The calendar is useful and informative. I bought this mostly to keep the attendance record. The good thing is that you can record a whole month of attendance on one page. The downside is that the space to write the hours in is very small and hard to write the time in, which makes it difficult to read when tallying up the hours. However, it is very convenient and allows you to keep your records organized.

I'm a daycare provider and I always had a hard time keeping up with all the things likening required

my to keep track of...it's nice to have a helping hand like this calendar to remind me and keep track of things all in one....it's just like a regular calendar but has been written all of the monthly dates when to do a fire drill,gives you a list to write down your expenses for each month and categorized for tax purposes,gives you menu tips,come with attendance and payment chart,and tells you what forms are needed to do taxes at the end of the year...it's perfect because I wasn't sure how everything with taxes worked and this pretty much tells you what needs to be done month by month.

I bought this calendar for my new daycare since my boss hasn't explained how to do our taxes yet and I wanted to be on top of our game with this. It's terrific and I love the break downs and the fact it even gives you a recipe and snacks for each month. It would be really cool if it came with meal plans for each day but I guess that above and beyond they even tell you how to fill out each sheet. I will be purchasing this in the future as it's a life saver even has attendance sheets.

The Redleaf Calendar-keeper is awesome! If you are looking for a simple way to keep track of everything for your daycare In one place this is for you. You can keep track of payments, attendance and expenses. It also gives you recipes and activity ideas. If you are in childcare this is a must have item. I would recommend this to anyone in the childcare field.

Helps me to be organized and ready for tax time. Helpful sections for expenses, income, attendance, and meal counts, time/space calculations. Home child care business must-have! Super fast shipping!

Best business tax decision I've ever made. With this tool I'll be able to complete my taxes next year without having to search through old receipts and print out bank statements. It's easy to follow. Every home daycare owner should use this for record keeping.

I love this calendar for my daycare business. It has lots of room for multiple kids. I use it for my bookkeeping, it has record pages for each month along with activities and recipes! I can also claim this for a business tool.
