Grade Level: Preschool - Kindergarten

Customer Reviews

I got this for my daughter's 2nd birthday, along with 2 other horse/pony books, because she is obsessed with horses and ponies!! The book is super cute! My daughter was very excited to get this and loves it!! I definitely recommend it!!

Great little book. However, you are able to put your finger in the hole in the front of the book to make the pony's nose. My 2 year old granddaughter was SCARED of it and ran away. After 2 or 3 times of showing her she is okay with it.

My 2 year old daughter is obsessed with horses and I have had difficulty finding board books devoted to just horses. This is a cute book, but every page is almost the same. I would have preferred pictures of the ponies doing different things like eating, riding, being groomed, etc.

Nevertheless, my daughter likes it!

Great little book for toddlers to learn with. The pictures and textures are great and the size is perfect for little hands.

Adorable book!!!! My granddaughter is 2 and she loves for someone to read to her and really loves the books she can interact with. This one is really cute with the touch and feel parts and she loves it!!!! She really loves horses and this book is perfect for her.

the first book my 5 month old baby has seemed interested in she loves feeling the different fabrics and we're all horse people here so we were thrilled that she was interest in the horse book money well spent

My daughter loves this book, she got it for her one year birthday. It's about 5 double sided pages, and the feel parts are nice and thick. Short but entertaining.

My 1 year old niece LOVES this book, knows exactly where to touch on every pages and wants it read to her multiple times a day.
