Age Range: 4 - 8 years

Grade Level: Kindergarten - 3

Customer Reviews

On each left-hand page, we see a capital letter and an alliteration consisting of an adjective and an animal name.(H, hungry hippo).On each right-hand page, we see an appropriate illustration.The book is small, but the illustrations are large. The book might be large enough to show to a group of children.

I like that it's small enough to carry in my purse, in the ready to be pulled out and given to my 20-month old while we're waiting for our food at a restaurant. At first I thought, "A very small coloring book for a very small boy. Perfect!" But then, it is just a bit too small. We usually need to hold down the pages for him so that it doesn't move while he's scrawling on it.

My 2.5 year old son LOVES this book to look at and say the letters, however, the copy i received has a huge misprint... next to the "T" is a picture of the Lazy Lion... then it goes on to show M through S again. If T thru Z were printed correctly i would have given a 5. and it is much smaller than i expected... but still cute.

This is very small as others said but what's the big problem. I think its a great little coloring book for the price. Has A-Z animals and letters to color, in order. Bought this for my 18 month old and he likes it. (Couple wiered animals listed rather than basic animals, but no big deal...can always use as a chance to learn more.)

My 3 year old daughter has had this book since she first turned 2. She doesn't care for this book much when we are at home. However, it is great to pull out with a few crayons at the doctors office or in the car.

This book is really hard to color in because it's so small and the pages don't lay flat. It's more like a picture book than a coloring book because of that. I do like this one better than the dinosaur one because the pictures are more interesting.

I was looking for a small coloring book that I can carry in my purse and pull out whenever I need to keep my 2 year old occupied. It does just that. The illustrations are big enough to color for the little ones. My only complain is that you have to press hard on the book to keep it open which can be a challenge for a 2 year old.

This I purchased in a three pack and I thought I was getting a 3 full size coloring books. But no, I got two tiny coloring books (The little ABC coloring book, The little animal ABC coloring books) and full size was ABC By Anna Pomaska. If you are seeking a full size one I suggest purchasing the 2.50 by Anna Pomaska. I can not believe the other two are so small a child could not coloring in them. Literally it is the size a small checkbook! Be careful if you decide to order in a three pack like I did as "The Little..." title should read Super Tiny Coloring book. What a waste of money buying this for a child! Very unhappy mother!
